

Deep Roots in Health Policy, Regulation, Payment, Compliance, Defense, and Workforce Management

EPSTEIN
BECKER
GREEN

Law Firm Platform. Epstein Becker Green (EBG) is a “super boutique” law firm, with a nationwide reach. EBG, together with its two affiliates (a consultancy and an advocacy firm) focus specifically on national and state cross-sector health regulatory, compliance, enforcement, defense, policy and legislative advocacy for the health care and life sciences industry. For health care and life sciences companies, we also created the [HEAL®](#) strategic industry group, which unites the firm’s two major practices — Health Care & Life Sciences and Labor, Employment, & Workforce Management — to help these companies address the many unique challenges they face as employers.

Strategic Collaboration. When increased capacity and focused knowledge and experience are required, EBG works collaboratively with its two affiliates—EBG Advisors (consulting) and National Health Advisors (advocacy)—to fulfill clients’ business objectives and legal, consulting, and advocacy needs. [EBG Advisors](#) is a national strategy and management consultancy that serves the health care and life sciences industry and provides [workforce management strategies](#). National Health Advisors provides unmatched expertise in helping organizations navigate the Legislative and Executive Branches in order to influence policies affecting the delivery of health care in the United States and abroad.

EBG is the founding sponsor of the Women Business Leaders of the U.S. Health Care Industry Foundation. See www.wbl.org.
