Tampa's dynamic business landscape is constantly evolving, and hospitals, physician practice groups, and other health care institutions have driven much of the city's recent growth and represent much of its innovation.

Health care entities, including hospitals, ambulatory surgery centers, clinics, and physician practice groups, look to our experienced attorneys for sound advice and strong representation, whether in health care, litigation, transactional, employment, or other matters, as well as for general counsel services.

With offices in Tampa and St. Petersburg, Epstein Becker Green is ready to serve you from both sides of the Bay.
